PRODUCTION AREAS

ZONES DE PRODUCTION

Woodwork | Menuiserie

Our pieces are crafted by experienced hands, then move on to a finishing line that ensures superior quality.

Nos pièces passent entre des mains expertes, puis par une ligne de finition qui garantit une qualité supérieure.

Metalwork | Métallerie

Transformation of tubing and metal sheet into finished products. Final touches applied through an epoxy powder coating line.

Transformation de tubes et de tôle en produits finis. Finition assurée par une ligne de peinture en poudre époxy.

Polymer Injection | Injection de polymères

Fully automated gas-assisted injection line, enabling efficient mass production.

Ligne d'injection assistée par gaz entièrement automatisée permettant une production de masse efficace.

NAUTILUS began its journey in 1996 with the production of domestic furniture. In 1999, the company began producing school furniture, with recognised success. Today, NAUTILUS's activity is broader, consisting of the production of wooden, metal and polypropylene furniture, aimed not only at the school segment, but also at the production of furniture for offices, libraries, churches, museums, etc.

NAUTILUS a commencé son parcours en 1996 avec la production de mobilier domestique. En 1999, l'entreprise s'est lancée dans la production de mobilier scolaire, avec un succès reconnu. Aujourd'hui, l'activité de NAUTILUS est plus large et consiste en la production de meubles en bois, en métal et en polypropylène, destinés non seulement au segment scolaire, mais aussi à la production de meubles pour les bureaux, les bibliothèques, les églises, les musées, etc.

Why Choose NAUTILUS?

Nautilus Furniture is more than just a furniture manufacturer – it is a committed partner focused on excellence, innovation, and customer satisfaction. Each piece is carefully designed and crafted to ensure durability and functionality. We offer a wide range of options to meet the needs of any educational environment. Our dedicated team is ready to support you at every stage – from project planning to final installation.

Pourquoi choisir NAUTILUS ?

Nautilus est bien plus qu'un fabricant de mobilier — c'est un partenaire engagé, axé sur l'excellence, l'innovation et la satisfaction client. Chaque pièce est soigneusement conçue et fabriquée pour garantir durabilité et fonctionnalité. Nous proposons une large gamme d'options pour répondre aux besoins de tout environnement éducatif. Notre équipe dédiée est prête à vous accompagner à chaque étape — de la planification du projet à l'installation finale.

Versatile and designed for today's and tomorrow's educational environments.

NAUTILUS presents a line of school desks specially developed to promote collaboration, flexibility, and durability in learning environments. Designed to meet the demands of modern education, NAUTILUS desks are height-adjustable, robust, and made from high-quality materials resistant to heavy use and daily impact.

With a modular and functional design, they allow for the creation of different configurations in the classroom, encouraging group work, active participation and adaptation to different teaching methodologies.

Utilisé par des millions d'élèves chaque jour, partout dans le monde.

NAUTILUS présente une gamme de tables scolaires spécialement conçues pour favoriser la collaboration, la flexibilité et la durabilité dans les environnements d'apprentissage. Conçues pour répondre aux exigences de l'enseignement moderne, les tables NAUTILUS sont réglables, robustes et fabriquées avec des matériaux de haute qualité, résistants à une utilisation intensive et aux chocs du quotidien.

De conception modulaire et fonctionnelle, ils permettent de créer différentes configurations dans la salle de classe, encourageant le travail en groupe, la participation active et l'adaptation à différentes méthodologies d'enseignement.

ERGOS ERGMI

Sustainability and design go hand in hand. Made from 100% polypropylene, the ERGOS ERGMI table does not require glues, varnishes or paints - a conscious choice that makes it totally recyclable and reusable in the manufacture of new products. An intelligent solution for modern and responsible environments.

Durabilité et design vont de pair. Fabriquée en 100 % polypropylène, la table ERGOS ERGMI se passe de colles, vernis ou peintures – un choix conscient qui la rend entièrement recyclable et réutilisable dans la fabrication de nouveaux produits. Une solution intelligente pour des environnements modernes et responsables.

ERGOS ERGMI

Lightweight, durable, and eco-friendly. An intelligent design that combines comfort, safety, and sustainability. With rounded corners and appealing colors, the ERGOS ERGMI table brings a sense of lightness and personality to any space. Made from 100% polypropylene, with no glues, varnishes, or paints, it is fully recyclable and reusable. The result is a durable product that is easy to maintain and environmentally friendly.

Léger, durable et écologique. Un design intelligent qui allie confort, sécurité et durabilité. Avec des coins arrondis et des couleurs attrayantes, la table ERGOS ERGMI apporte une sensation de légèreté et de personnalité à tout espace. Fabriquée à 100 % en polypropylène, sans colles, vernis ni peintures, elle est entièrement recyclable et réutilisable. Le résultat est un produit durable, facile à entretenir et respectueux de l'environnement.

MAIS

The MAIS table combines a traditional steel frame with an epoxy paint finish and the modern touch of a polypropylene tabletop. Floor contact points feature anti-corrosion polyamide glides, which protect against floor cleaning liquids.

La table MAIS associe une structure traditionnelle en acier avec une finition en peinture époxy, et la modernité du polypropylène utilisé pour le plateau. Les appuis au sol sont assurés par des embouts gainés en polyamide anticorrosion, qui protègent contre les produits de nettoyage des sols.

MAIS

Steel tube frame with epoxy paint finish. Polypropylene top with rounded corners for greater safety and comfort, 100% recyclable. Washable surface.

Structure en tube d'acier avec finition en peinture époxy. Plateau en polypropylène, avec coins arrondis pour plus de sécurité et de confort, 100 % recyclable. Surface lavable.

HT

The HT table can be easily folded to save space when not in use. It is possible to add casters to move the table easily from one place to another. Whether for cafeterias, impromptu meetings, or flexible workspaces, the HT table offers versatility and practicality.

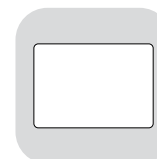

La table HT peut facilement se rabattre pour économiser de l'espace lorsqu'elle n'est pas utilisée. Il est possible d'y ajouter des roulettes pour faciliter son déplacement d'un endroit à un autre. Que ce soit pour les cantines, les réunions improvisées ou les espaces de travail flexibles, la table HT offre polyvalence et praticité.

FINISHINGS

FINITIONS

The metal frames of our products are treated with epoxy coating, a finish that ensures high resistance, durability, and corrosion protection. This painting process not only provides excellent wear resistance but also delivers a refined aesthetic, available in various colors to suit any environment. Our choice of finishes reflects a commitment to quality and the longevity of the furniture.

Les structures métalliques de nos produits sont traitées avec un revêtement époxy, une finition garantissant haute résistance, durabilité et protection contre la corrosion. Ce procédé de peinture offre non seulement une excellente résistance à l'usure, mais aussi une esthétique soignée, disponible en plusieurs couleurs pour s'adapter à tout environnement. Notre choix de finitions reflète notre engagement envers la qualité et la longévité du mobilier.
